VIEWS FROM EVERYWHERE!

That's right, upstairs, downstairs, inside and out..... you'll never want to leave this fabulous location. Perfect for the health conscious among you with an early morning dip in pristine waters or paddle boarding, kayaking and sailing, this is the SPOT!

With a massive garage, space is not an issue and the living areas are perfect for any time of year. Ground floor living opens on to the huge, sheltered alfresco complete with built in bbq simultaneously overlooking the the bay and Garden Island.

Upstairs there's what could be described as the 'relaxation centre' where sitting on the balcony enjoying a glass or two or rolling out the yoga mat and meditating first thing will start your day very nicely.
