SOLD

The peaceful location makes it somewhat of a sanctuary, while inside the style and quality on show is OUTSTANDING and packed with quality, EXQUISITE features and FABULOUS presentation!

The 'big ticket' items ie kitchen, living area and main bedroom have been well thought out and prioritised in the meticulous planning of this beautiful property. In fact only a personal viewing will give a true indication of just how nice it is.

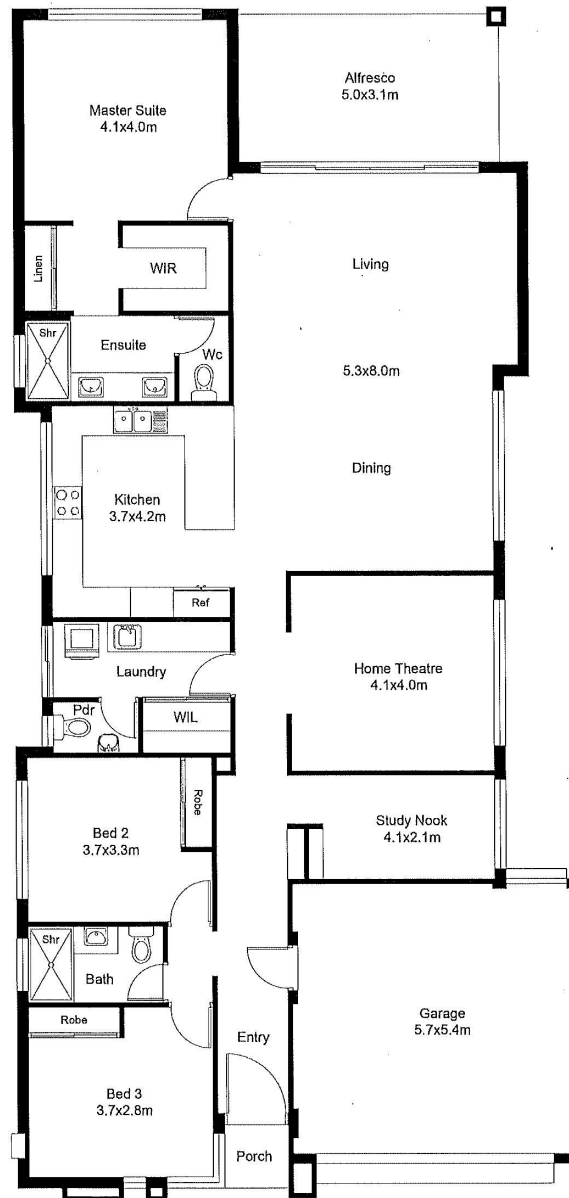

Built in 2017 and located on 375sqm and with 3 WC's, the home looks like it's hardly been lived in and comes with it's own STUDY, a separate theatre room and as you would expect, reverse cycle ducted air conditioning throughout.

An amazing home that I'm so proud to present to the market, will see huge interest and I hope that you are one of those who get the opportunity to view it.
